ST JOSEPH'S
SCHOOL
IN ALL THINGS KINDNESS

Welcome To Our Social Enterprise Business

All these items have been designed and created by students in years 7-9 to help them learn about business management, marketing and sales. As part of their Business subject, students needed to identify social issues in our community that were important to them. They then brainstormed, prototyped and refined their ideas into products they could make and sell for a profit in order to support their social issue. Each student started with \$20 seed money, provided by the \$20 Boss program. Now it is time for our young entrepreneurs to sell their products and build their empires! Please support us. Use the order form at the end of this catalogue to make a purchase.
